

Sergiy Dolgov (Max)

Frontend Web Developer

Hi, my name is Sergiy. People call me Max. I love to make beautiful, responsive, fast intuitive websites. My favorite part of web design development is the frontend. I enjoy working with HTML and CSS to make every detail look perfect on any device, and JavaScript to make things interactive and fast. I like to grow constantly and get new knowledge. On my website (www.devmax.pro) you will find all my recent works (including business and student projects) with a detailed description of the skills, that I used in making them.
